\* Seats optional

## HOW TO CARE FOR YOUR CLEAR BLUE HAWAII BOAT

1. After paddling wash with mild solution of soap or lukewarm water.
2. Using a soft cloth or sponge, gently wash the sheet to loosen dirt and grime and rinse well with water.
3. To prevent water spotting, thoroughly dry with chamois or cellulose sponge.
4. Avoid the use of abrasive cleaners, squeegees and/or other cleaning implements that may mar the coating.
5. When entering, loading or unloading your boat place it parallel to the shore in water deep enough so you don't scuff the bottom of the hull. Don't drag your boat over sandbars and riffles; lifting over obstacles prevents abrasion and scratching.
6. To prevent UV damage store indoors. If you keep your boat outdoors turn it upside down. The bottom has an additional coating of UV that will help deter damage caused by the sun.
7. If you apply sunscreen do it before entering the boat. Petroleum products will attack the integrity of the clear polycarbonate material. If contact with a petroleum based product is made follow the steps in section 1 above.

### **WARNING**

For use in calm water this is not a white water or surf kayak. This kayak should be used by someone who is familiar with Kayaking and water conditions. Always check the condition of your kayak and gear before entering the water. Wear a coast guard approved personal floatation device. Understand your limitations. Be aware of your environment, the weather, and boat traffic. Do not use under the influence of drugs or alcohol.
